

RECYCLE MATTERS
Mattress Recycling

Recycle Matters is a Training and Employment Social Enterprise operating under the umbrella of INEO Employment Services. The Social Enterprise is supporting economic, environmental, and social development in our community.

At Recycle Matters, the team manually breaks down the mattresses into separate materials and recycles each component appropriately. About 90-95% of materials in a mattress can be recycled. There are also ways to reuse materials that cannot be recycled. In 1-month over 20 metric tonne of waste can be saved from our landfills.
